**Charlotte Pipe And Foundry Offers New CTS CPVC Male and Female Brass Threaded Adapters**

**New Injection Molded Design Provides Greater Performance, Reliability**

CHARLOTTE, NC - August 18, 2004 - Charlotte Pipe and Foundry has designed new CTS CPVC male and female Brass Threaded Adapters. The new 1/2", 3/4" and 1" adapters complement Charlotte Pipe's complete line of FlowGuard® Gold T CTS CPVC pipe and fittings.

Unique in its design, Charlotte Pipe injects the CPVC compound into the brass fitting. The CPVC material is flush with the brass fitting for greater structural integrity and reliability. Manufactured in a shorter pattern, the new fittings also fit much easier in stud walls than other designs.

Charlotte Pipe and Foundry is the only manufacturer that offers a *system* of cast iron, ABS, PVC, CPVC and CTS CPVC FlowGuard® Gold T pipe and fittings for residential and commercial plumbing systems and industrial applications.

The nation's leading maker of cast iron and plastic pipe and fittings, Charlotte Pipe and Foundry offers the industry's broadest product offering of DWV and pressure products .

Charlotte Pipe and Foundry is headquartered in Charlotte , NC and has five plant locations across the United States . Combining modern technology with a century of craftsmanship and experience, Charlotte Pipe and Foundry has a proud legacy of commitment to the industry and its customers. The company is guided by the philosophy of its founder - produce the best product possible and provide the best service for the customer.
